

Call for TRB Poster Session Materials--Jan. 2004

Analyzing and Presenting Census Data

*TRB Subcommittee on Census Data for Transportation Planning [A1D08(1)] and
Committee on Transportation Planning Needs for Small and Medium-Sized Communities [A1D05]*

The Sponsoring Committees are interested in developing a poster session for the 83rd TRB Annual Meeting in January 2004. The subject of the poster session will center on the innovative and creative ways that census related data is being analyzed, presented and displayed.

Under the TRB guidelines, a poster session is a series of presentations on vertical display boards with direct interaction between the presenter and attendees. The entire presentation is placed on a display board and should be considered the equivalent to the conventional paper or presentation sessions. Typically, a TRB Poster Session is made up of reviewed papers. Similar to the 82nd Annual Meeting, and because of the evolving nature of the subject and the fact that key US Census related data will be released through the summer--time is short--presentations will be considered.

Individuals interested in sharing some of the innovative and creative ways in which they are displaying and making the latest Census data available within their transportation community are encouraged to "show their work". Those seeking publication as part of the TRB Research Record series need to have their paper submitted, according to TRB guidelines no later than August 1, 2003. For more information on the paper submittal process or the Annual meeting refer to;
<http://www4.trb.org/trb/annual.nsf>

Those wishing to present their materials without seeking full publication may submit an abstract by August 1, 2003 to Bob Sicko, Chair of the Subcommittee on Census Data for Transportation Planning.

More detailed information and general instructions for a TRB Poster Session can be found at
<http://www.nas.edu/trb/archives/publications/am/poster.pdf>
